

Activity 4: Group Activity Git

Repository Link:

- Create Repository, add [README.md](#), make it public:

The screenshot shows the GitHub 'Create a new repository' interface. It is divided into two sections: 'General' and 'Configuration'. In the 'General' section, the 'Owner' is 'emjip24' and the 'Repository name' is 'data-science-iot', which is confirmed as available. A description field is empty. In the 'Configuration' section, 'Choose visibility' is set to 'Public'. The 'Add README' toggle is turned 'On'. The 'Add .gitignore' dropdown is set to 'No .gitignore', and the 'Add license' dropdown is set to 'No license'. A green 'Create repository' button is at the bottom right.

Create a new repository

Repositories contain a project's files and version history. Have a project elsewhere? [Import a repository](#).
Required fields are marked with an asterisk (*).

1 General

Owner * **Repository name ***

emjip24 / data-science-iot

✓ data-science-iot is available.

Great repository names are short and memorable. How about [psychic-engine](#)?

Description

0 / 350 characters

2 Configuration

Choose visibility *
Choose who can see and commit to this repository

Public

Add README
READMEs can be used as longer descriptions. [About READMEs](#)

On

Add .gitignore
.gitignore tells git which files not to track. [About ignoring files](#)

No .gitignore

Add license
Licenses explain how others can use your code. [About licenses](#)

No license

Create repository

- Including list and task in [README.md](#):

The screenshot shows the 'Preview' tab of a GitHub README.md file. The content includes a title, a list of members, and a list of tasks.

```
1 # data-science-iot
2
3 ##member:
4 - Mary Julith C. Poniente
5 - Jhiro C. Bautista
6
7 - Task:
8 - Integration, Benefits, and Risks Data Science, IoT, and Application of both. - Jhiro Bautisa
9 - Analysis, Conclusion, and References of the research study. - Mary Julith Poniente
```

- Adding Group Members:

- Cloning git repository:

Julith:

Jhiro:

- Creating branch for task:

Julith:

```
ng C:\Users\Mj\data-science-iot>git checkout -b analysis-conclusion
Switched to a new branch 'analysis-conclusion'
```

Jhiro:

```
C:\Users\USER\Documents\GitHub\data-science-iot> git checkout -b Integration & Benefits
Switched to a new branch 'Integration'
'Benefits' is not recognized as an internal or external command,
operable program or batch file.

C:\Users\USER\Documents\GitHub\data-science-iot>
```

- Creating changes and pushing in main branch:

Julith:

```
C:\Users\Mj\data-science-iot>git add analysis-conclu.txt

C:\Users\Mj\data-science-iot>git commit -m "descriptive commit message"
[analysis-conclusion e46e79c] descriptive commit message
1 file changed, 1 insertion(+)
create mode 100644 analysis-conclu.txt

C:\Users\Mj\data-science-iot>git push origin analysis-conclusion
